

## Shanaha.

I think that junk food should not be sold at the canteen for the reasons of dental health, cheaper and litter.

Junk food contains a lot of sugar and fat. Large amounts of sugar rats your teeth.

Fresh food is cheaper than junk food because it doesn't need as much package.

The rubbish would be cleaner because kids and adults would not be tempted to litter.

In conclusion school canteen should not sell junk food at the school canteens. for the reasons of dental health, cheaper and litter.
