The Resident

Dear Resident

Have you ever thought about what your home contents would be worth? Maybe it's a while since you last calculated the value of your assets.

Think about the extra CDs you've bought. Think about your new sporting equipment. Think about the extra things in your house as your children grow. What about the new DVD you've just purchased? Chances are the small items of jewellery you own have increased greatly in value since you last applied for contents insurance.

Safe as Houses Contents Insurance has a deal which will suit everyone. No matter what your required level of cover, Safe as Houses can offer you the best deal.

Furthermore, Safe as Houses offers a support service to assist you in identifying the correct level of cover for your home contents. If you would like to take advantage of this service, call 1800 722 722, 24 hours a day to arrange for a consultant to discuss your needs.

If you'd like to take up our special introductory offer of a 25% discount on your premium for the first three months, dial 1800 723 723 now!
