

Storm music

<p>Storm music For non-melodic percussion instruments</p> <p>Directions for players</p>	
<p> = wind sounds (voice, wind instruments, recorder mouthpiece). Note: The direction of the line corresponds to the rise and fall of the pitch.</p>	<p> = Lightning sounds (rolls on triangles and finger cymbals). The length of the roll is shown by the length of the zigzag.</p>
<p> = rain sounds (wooden blocks, claves, cabasas, castanets).</p>	<p> = thunder sounds (rolls drums, and piano strings etc). The size of the shape corresponds to the loudness and duration of the sound.</p>
